SERVOTOME II

A New Impulse In Electrosurgery

Experience The Benefits Of Electrosurgery

Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneous hemostasis.

SOFTLY

SOFTLY Amalgamator

Softly is very stable, extremely quiet, and very easy to clean and maintain. To guarantee totally safe operation, Softly is deactivated when you open the front cover to access the capsule. Softly is made entirely of injection-molded ABS material. It complies with all electrical and mechanical safety standards.

PSPIX2®

By your side, to care for everyone

X-MIND® prime has been engineered to ACTEON® place its 20 years of expertise at your service and those of your patients.

The first simple and intuitive personal imaging plate scanner provides outstanding images and was designed to free practitioners from constraints.

Whatever your patient's morphology or pathology, the PSPIX®² adapts to your needs. As your personal assistant or in collaborative mode, experience high productivity without compromising on quality.

This trustworthy assistant will provide you with clear and accurate results, empowering you to focus on what matters most: your patient.

- **Striking Contrast** for a more reliable diagnosis
- **The Smallest Scanner** on the market
- **The Fastest Scanner** on the market
- **The most intuitive** scanner
- **Thin and flexible imaging plates** of various sizes for adaptability and outstanding patient comfort.

SOPIX SERIES

- **SMART FLOW** Our sensors adapt to all clinical cases, all morphologies and all software, to provide you and your patients greater comfort.
- **SMART TECHNOLOGY** Our latest generation of digital sensors provide a sharp X-ray image for an easy reading of the different dental tissues.
- **SMART DOSE** The **ACE**® technology protects the image from over exposure for an optimal quality without any effort.

XMIND PRIME 2

Easy Acquisition Effective Workflow

- X-MIND® prime has been engineered to make your daily operations faster and more efficient.
- Its effortless and lightweight wall mounting solution, allows to quickly install it almost everywhere, ensuring the maximum accessibility in any context, for both standing or sitting patient!
- Its clean and neat user interface with finely designed workflow is intended to fulfill your daily tasks with the minimum number of steps, to take you straight to the result.
- Easy. Effective. Simply X-MIND® prime.

BUY Prime OPG or CBCT
GET 1 x X-Mind Unity Wall Mt X-Ray FREE

Ergonomic and User-Friendly Design

Reduce operator interventions and increase patient comfort

Stylish and smooth design underlying a cutting-edge technology.

Easy and fast **face-to-face patient positioning**.

Fast installation
X-MIND® prime is ready to install! Delivered completely assembled at your practice, you are all set-up in only one hour.

Ergonomic head positioner with centering references **optimized to improve the accuracy in positioning** and reduce the incidence of movements during scanning in cephalometric mode.

Full accessibility for standing or sitting patient thanks to its zero footprint.

Automatic FOV centering, LED light chin rest recognition.

PIEZOTOME® CUBE

Easy Acquisition Effective Workflow

Expand your surgical expertise

Highly powerful, reliable and versatile, Piezotome® Cube drastically improves the experience of implant and bone surgery procedures.

Give value to your treatments

The Cube's unmatched performance combined with the practitioner's clinical expertise facilitates accurate, faster, atraumatic and more predictable bone treatments.

Give the best to your patients

Provide compassionate clinical care with effective, predictable outcomes and enhanced healing with significantly less swelling, bleeding, pain and complications.

Your trusted OEM partner

Integrate Acteon's solutions in your treatment unit, choose ACTEON as your OEM partner with confidence.

EliSense

Thanks to LED indicators and display the outstanding technology offers cycle status information, temperature information and much more to optimize both workflow and output at a glance.

EliTrace

For the first time, the sterilization process can be traced and documented down to the individual instrument or instrument kit. Without additional software or computer.

Eco Dry+

Eco Dry technology adapts the drying time to the mass of the load. This reduces the cycle time, increases the life span of your instruments and optimizes the energy consumption.

**Contact Us For Your Special
Pricing On Items And Bundles**

Lara XL 28L

A real miracle of space which will exceed your expectations

Reprocessing in less than 30 minutes

Thanks to Eco Dry + technology, Lara XL can sterilize instruments in just 28 minutes.

Higher efficiency due to larger capacity

Lara XL comes with 6 large trays along with a unique rack providing larger loading surface and more loading options.

Full traceability

without extra software or computers: with EliTrace.

Assistina TWIN

Unique among maintenance devices

The Assistina Twin from W&H is unique among maintenance devices: with its innovative duo-chamber system, record time lubrication and the environmentally friendly Care Set, it impresses all along the line.

- Easy to use
- Quick adaptor change
- Oil service in record time of just 10 seconds
- More flexibility
- optional Q-Dry
